OPENER
Sides face, Grand Square
I see you out there lonesome every single morning,
by my side, you'll never be alone,
Tell me what it is your heart desires,
Allemande left that corner and you weave ….
'Cause all I wanna do is take you home.
Yes, I'm so in love with you
I'm so in love with you
TAG: I'm so in love with you.

FIGURE
Heads /Sides Promenade and go halfway
Walk right in, you pass the ocean there, extend
Swing thru and now boys run right
Bend the line, a right and left thru tonight….
Two ladies chain, keep that girl and promenade
By my side you'll never be alone!
I want to shower you with a love you've never known!
TAG: I'm so in love with you

MIDDLE
Four ladies chain across the ring go,
turn that girl and chain her right back home…
You're the one who keeps me all together….
allemande left that corner and you weave!
All I wanna do is shower you with love
A love like you've never known….
Yes, I will tell the world how much I love you
TAG: I'm so in love with you.

CLOSER
Sides Face grand square
I really need you standin' here beside me
No place in this world I'd rather be.
You're the one who keeps me all together…
Allemande that corner and you weave!
I will tell the world how much I love you
Let me hold your hand all through the night….
Just tell me what it is your heart desires….
I'm so in love with you…

TAG: Yeah, I'm so in love with you!
