*Papa writes to Johnny, but Johnny can't come home
Johnny's been on that chain gang too long
Allemande that corner, turn the partner by the right
Allemande that corner, weave the ring
I laid around and played around this old town too long
Summers almost gone and winters coming on
I laid around and played around this old town too long
And now I feel like I gotta travel on

FIGURE

Head couples square thru 4 hands you go
Go around that corner and do a dosado
Swing thru and then, you spin the top my friend
Boys move up and a right & left thru
Square thru go 3, and that corner lady swing
Swing that lady around promenade the ring
I laid around and played around this old town too long
And now I feel like I gotta travel on

TAG

And now I feel like I gotta travel on

*Well the High Sheriff and the police are coming after me
Riding after me, yes they're coming after me

*Well I wanna see my honey, wanna see her bad
Cause she's the best girl this poor boy ever had
