

Just To Walk Away

AR-109

Called by
Andy Finch

OPENER - MIDDLE BREAK - CLOSER

Sides face grand square

*I made 500 miles in six hours flat

Tryin' to make up for lost time

I been beatin' a path to your momma's door

To set things between us right

Left allemande and then star thru and Roll

Swing and promenade

**And I didn't come this far just to walk away

FIGURE

Heads promenade halfway around,

walk in square thru to 4

Go all the way and touch 1/4 now

Scoot back and the boys run right

You star thru, pass thru, trade by and swing

Swing that corner girl and promenade

Oh, I didn't come this far just to walk away

ADDITIONAL LYRICS

*I could have turned around a thousand times

And went back to where I'm from

But I'd go an extra million miles

If I could save what's left of us

**And I didn't come this far just to walk away

*I know that this front door ain't the only thing

That stands between you and me

All the things I've said and the wrong I've done

Ain't undone easily

**Cause I didn't come this far just to walk away

TAG

No, I didn't come this far just to walk away
