Nothin's Gonna Stop Us Now

GMP-1007

Called by
Lone Blume

OPENER - CLOSER

Sides face grand square

Lookin' in your eyes I see a paradise

This world that I've found is too good to be true

Standing here beside you, want so much to give you

This love in my heart that I'm feeling for you

4 ladies chain, you chain her right back

Keep that girl and then you all promenade

And we can build this dream together

Standing tall forever

Nothin's gonna stop us now

FIGURE

Heads (sides) square thru, it's 4 hands you go

Find the corner lady, dosado one time

You touch 1/4, scoot back my friend, boys you run

Right & left thru and turn in time

Dixie style, make an ocean wave

The boys cross fold, swing that corner

Promenade, don't ever let go

Let the world around us just fall apart

Baby we can make it if we're heart to heart
