

Solid Ground

CAR-2032

Called by
Mike Huddleson

OPENER - CLOSER

Sides face, grand square

*One man built his house on the sand

Another put his house upon the rock

When the floods of tribulation came, you can understand

Why one house remained and the other one did not

Four ladies promenade inside that ring, you're gonna go

Get back home and swing then promenade her home

Leanin' on each other, standin' on our vows

With this love in our hearts, baby, we're on solid ground

FIGURE

Heads square thru four hands

With those sides make a right hand star

Heads star left in the middle, one time and then

Back to the corner girl, dosado once again

Touch 1/4, scoot back, corner lady swing

Swing your girl, promenade that ring

Leanin' on each other, standin' on our vows

With this love in our hearts, baby, we're on solid ground

MIDDLE BREAK

Four ladies chain straight across that ring

Roll away and circle to the left

Four ladies roll away, circle left, go round that ring

Allemande that corner girl, weave around that ring

You wind it in and out around until you meet your maid

Swing your girl around and then you promenade

Leanin' on each other, standin' on our vows

With this love in our hearts, baby, we're on solid ground

TAG

With this love in our hearts, baby, we're on solid ground

*If you've got to high ground when troubled waters rise

Where we can lay back and watch the clouds roll by

As long as I've got you, stormy skies can come around

Baby, let the rain fall, we're on solid ground
