Straight From The Factory

Q-1869

Called By Lee Main

OPENER - MIDDLE BREAK

4 ladies chain, go straight across that ring
Rollaway and circle left go round
4 ladies rollaway, circle left, go round that way
Left allemande, weave that ring
Straight from the factory we were made for each other
It's one of those things that's meant to be
Straight from the factory, nothing less than exactly
You're the only lock made to fit my key

FIGURE

Head (side) two you square thru, 4 hands around you go
Dosado that outside two
Swing thru, come down the wave & boys run to the right
Chain down the line & when you get through tonight, pass the ocean
Scoot back and then that corner lady swing
Swing that girl and promenade
Straight from the factory, nothing less than exactly
You're the only lock made to fit my key

CLOSER (key change)

Circle left
Straight from the factory we were made for each other
It's one of those things that's meant to be
Left allemande your corner, come back & dosado now
Left allemande, weave around that ring
Straight from the factory we were made for each other
A perfect match just anyone can see
Straight from the factory, nothing less than exactly
You're the only lock made to fit my key

TAG

You're the only lock made to fit my key
