OPENER

Circle left

Have you ever been down to Haiti when the summer sun was sinking low
Left allemande your corner, do sa do your own, left allemande and weave
But when the Cuban queen comes upon the scene they all stare
Swing the girl and promenade
And when the realize what's before their eyes, the other girls are left alone.

FIGURE

Heads [sides] square through four hands you do
You meet the sides [heads] make a right hand star, turn it once
Heads [sides] star left, go once around that set to the same pair touch a quarter there.
Scoot back one time and then you scoot back again, swing that corner girl and promenade
And when the realize what's before their eyes, the other girls are left alone.

BREAK

Circle left

Down in the Caribbean it's not a dream you're seeing
When you get a glimpse of the lady with the charm
Left allemande that corner, do sa do that girl, boys star left one time around
You turn your partner right, left allemande tonight, you come back swing and promenade
But from miles away you can see her sway, to the beat of the conga line.

CLOSER

Circle left

Up in a tree so high way up in the sky, sits a wide-eyed monkey on a limb
Left allemande that corner, do sa do your own, left allemande and weave
He doesn't understand that it's a lady's hand that makes a heart feel so sublime.
But before too long he starts singing the song, then he gets in the conga line.
