

Wouldn't It Be Nice

SNOW-604

Called by
Thorsten Hubmann

OPENER

Sides face, grand square
Wouldn't it be nice if we were older
Then we wouldn't have to wait so long
And wouldn't it be nice to live together
In the kind of world where we belong
Allemande and weave
You know it's gonna make it that much better
Swing your girl and promenade forever
Happy times together we've been spending
I wish that every kiss was neverending

FIGURE

The heads square thru count it four hands go
With the sides you make a right hand star
Well all the heads star left inside the ring you go
Same two you do the right & left thru
Come on and swing thru and then let the boy run right
You half-tag, swing and promenade tonight
Happy times together we've been spending
I wish that every kiss was neverending

TAG

At home swing your girl
Wouldn't it be nice?
Oh, wouldn't it be nice?
