The Will To Love

A & S - 104

OPENER - MIDDLE BREAK - CLOSER

Circle left

*We've been down the road and back, crossed a bridge or two
Some of them we left to burn, some we painted blue
Allemande left the corner girl, come back with a dosado
Left allemande that corner, weave the ring
We never lost the will to love
Swing that lady go round and promenade her home
You were tried and I was tempted, but we never did give up
We never lost the will to love

FIGURE

Heads square thru 4 hands around you know
Dosado with the corner girl one time and go
Swing thru 2 by 2 and all the boys run right
Half tag, walk & dodge, partner trade tonight
Pass the ocean, recycle round
Swing that corner girl, promenade the town
You were tried and I was tempted, but we never did give up
We never lost the will to love

*You hurt me in anger, God knows I made you cry
But we brushed away the ashes so the flames there wouldn't die

*We're in this forever I told you from the start
'Cause any thought of leaving you just goes against my heart
