Circle left

Every street's a boulevard in old New York

Every street's a highway to my dreams

The men star by the right hand, gonna rock and roll you go

Do an allemande left your old left hand and weave it you know

Wind in and out till you meet your girl

Swing & whirl and promenade

The Eastside, the Westside, the Uptown and Down

Oh, I'd love to be in New York town

FIGURE (heads twice, sides twice)

Heads square thru in the middle 4 hands you go

Round that corner dosado

Swing thru tonight, boys run right

You bend the line, right & left thru turn the girl in time

Pass the ocean these, recycle her

Swing & whirl and promenade

The Eastside, the Westside, the Uptown and Down

Oh, I'd love to be in New York town

TAG

Swing 'em now boys

I'd love to be in New York town
