

# Ballad Of A New Caller

ENIS-2900

Called by  
Kenny "Little Enis" Jarvis  
& Wes Dyer

## OPENER

Circle left

Well, I got into square dancing a few years ago  
And I always wanted to be a caller, everybody knows  
You do an allemande left with the corner, come back and dosado,  
Do an allemande left with the corner, weave the ring  
So I bought me a record and a new microphone  
Swing that girl around and round and promenade her home  
I said it looks so easy, but Lord knows I was wrong  
How do I get these people home?

## FIGURE

Heads (sides) square thru in the middle 4 hands  
To the tune of the fiddle and get to the corner lady  
Dosado and make your wave, swing thru tonight  
Those boys run to the right, you ferris wheel  
And then a right & left thru and turn that girl  
You square thru and go 3 hands around, swing  
That girl around and round and promenade her home  
I said it looks so easy, but Lord knows I was wrong  
How do I get these people home?

## MIDDLE BREAK

Circle left

I got me a calling job at a local club in town  
Everything was going fine till I put that needle down  
You do an allemande left with the corner, come back and dosado,  
Do an allemande left with the corner, weave the ring  
Well, I weaved them in and I weaved them out, then something went wrong  
Swing that girl around and round and promenade her home  
I said it looks so easy, but Lord knows I was wrong  
How do I get these people home?

## CLOSER

Circle left

I went out to the Nationals the very next year  
And I walked up on that stage out there filled with fear  
You do an allemande left with the corner, come back and dosado,  
Do an allemande left with the corner, weave the ring  
Imagine this - 30 thousand dancers saying "What did he say?"  
Swing that girl around and round and promenade her home  
I said it looks so easy, but Lord knows I was wrong  
How do I get these people home?

## TAG

I'm glad it's over, I'm going home
